

Kushal Zanzari

+91 9098461001 | kushalzanzari@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Education

Vellore Institute of Technology,
Integrated (B.tech + M.Tech) in Artificial Intelligence CGPA: 8.51

Aug 2022 – Aug 2027

Technical Skills

- **Languages:** Python, Java, JavaScript, HTML, CSS
- **Frameworks :** Dialogflow, Flask, Tensorflow React.js, Node.js
- **Databases & Tools:** PostgreSQL, Ollama, MySQL, Git
- **ML Libraries:** Numpy, Pandas, Matplotlib, Scikit-learn

Professional Experience

Frontend Intern

Oct 2025 – Dec 2025

Trikuta Foods Private Limited

- Contributed to a production-level website by developing responsive and user-friendly interfaces.
- Implemented clean, modular frontend components with emphasis on scalability and maintainability.
- Ensured cross-device compatibility and prepared the frontend for future backend integration.

Generative AI Intern

Jan 2026

Google Cloud (SmartInternz & SmartBridge)

- Built generative AI applications using **Gemini** and **Vertex AI** on Google Cloud Platform.
- Developed cloud-based AI applications using GCP, integrating APIs and optimizing inference workflows.
- Worked on end-to-end AI workflows with a focus on practical, real-world use cases.

Projects

Nutrivista- Health-Focused Food Platform [Github](#) | [Live](#)

Oct 2023 – Jan 2024

HTML, CSS, React.js, SQL, Python, Flask, Dialogflow

- Designed a Dialogflow chatbot automating 85% of queries, improving overall system efficiency and response quality.
- Created a Python-based meal recommendation engine, boosting user engagement by 35% with personalized insights.
- Integrated Stripe PCI-DSS-compliant payments, reducing transaction failures by 28% and enabling secure checkout.

EchoAI – Voice & Chat Assistant [Github](#)

Aug 2024 – Oct 2024

Node.js, PostgreSQL, Google Gemini API, Tesseract OCR

- Integrated the Google Gemini LLM to power a multi-modal AI assistant, achieving 88% accuracy in responses by dynamically routing prompts for specialized tasks like coding and visual analysis.
- Engineered an OCR and document parsing pipeline using Tesseract, improving text retrieval efficiency from unstructured images and PDFs by 75%.
- Deployed real-time speech processing, creating a hands-free conversational interface that reduced manual typing dependency by up to 80% and minimized latency.

NeuroQ - AI Powered Mental Health Platform [Github](#) | [Live](#)

Jan 2025 – Mar 2025

Python, FastAPI, PostgreSQL, React, GroqAPI

- Deployed mental health dashboard allowing users to perform daily emotional update and track 10+ symptoms.
- Constructed an NLP journaling assistant that detects anxiety signals in free-text with 65%+ precision.
- Created a Stress-Relief Activities module with interactive tools (coloring, meditation, breathing, music therapy, anxiety games), contributed to a 30% uplift in user activity and session duration by 45%.

Achievements & Extracurricular

- Journal Submission (Under Review) – “Study of Classical Machine Learning and Deep Learning Methods for Image-Based Deepfake Detections” Nov 2025
- Top 6.7% Finalist at EY Techathon 5.0 Dec 2024
- Finalist – Top 50 out of 350+ Teams – The Food Hackathon CSIR-CFTRI, Mysuru May 2024
- Completed 100 Days of DSA Challenge

Certifications

- Certified Data Science Professional (Oracle) Oct 2025
- Certified Generative AI Professional (Oracle) Oct 2025
- Introduction to Front-End Development (Coursera) Nov 2024
- Cloud Computing (NPTEL) Apr 2024
- Applied Machine Learning in Python Dec 2023
